As a supplier of product: Bike hanger FORCE on the wall for pedal, art. code 89949

a) Description and functions of the product:

The hanger serves to effective and safe placing of bike (road, mountain) in garage, apartment or another storage area. Hanger fixes to the walls thanks to 3 pcs anchors and screws (under the condition that the wall is full-brick masonry or a panel and into this are drilled 3 holes in 8 mm diameter). After testing the stability of the holder in the wall it is possible to hang the bike for its pedal.

Attention: Other use of this product different from its purpose is not recommended.

b) Conformity assesment procedure:

The product was tested for its strength in the full-brick masonry under load of 400 N.

c) The supplier declares that characteristics of the product comply with the essential requirements which set out on this product and in the conformity in the point a) is this product safe to use.

The supplier has accepted measures which ensure conformity of all products that are put on the market.
